### **English Language Day Celebration Report**

On the occasion of World English Day, a special program was organized in our school to celebrate the beauty, versatility, and importance of the English language. Mrs. Bhamare began the event with a warm welcome and an inspiring message, highlighting how English connects people across the world and empowers individuals to express themselves creatively and confidently. She also introduced students to the literary legacy of William Shakespeare, urging them to read his works and discover the richness of English literature.

The celebration featured a series of interactive and enjoyable activities tailored to different grade levels, ensuring participation from all students.

For Grade I, the classic instruction game "Simon Says" was conducted to enhance listening skills, self-control, and the ability to follow directions in a fun, engaging way.

Grade II students participated in the Freeze and Justify activity, where students enacted scenes and were asked to freeze mid-action, after which they had to quickly justify their position or action using English. This activity not only entertained the audience but also boosted students' spontaneity, imagination, and adaptability, helping them develop quick thinking and creative expression.

In Grade III, a Show and Tell activity allowed students to bring an item from home and describe it in front of the class, improving their vocabulary, public speaking, and confidence.

Grade IV students showcased their creativity through Role Play, performing real-life scenarios such as shopping, airport visits, and book character interactions, which helped build their fluency, teamwork, and expressive communication.

The senior students from Grades V to X participated in a dynamic Debate Competition held in the assembly hall. Sixteen students expressed their views on thought-provoking topics while the audience listened attentively and asked insightful questions. English teachers from each grade guided the participants, ensuring a high standard of preparation and delivery. The debates reflected strong language skills, logical reasoning, and confident presentation. Following were the topics for the debate activity:-

1. Financial literacy should be taught in school?
2. Online education is better than traditional classroom
3. Moon and Mars mission are a waste of resources

4. Education and lifestyle
5. Marks should not be the only measure of intelligence
6. Co-curricular activities are as important as academics

In her concluding note, Mrs. Bhamare appreciated the enthusiasm shown by students across all grades and acknowledged the efforts of the teachers. She emphasized how such activities foster essential 21st-century skills and create a joyful, enriching environment for language learning. The event was a wonderful blend of learning and fun, making World English Day a memorable celebration for everyone.

Thus the activities completed by Mrs. Dhapte and Mrs. Bhamare under the guidance of Principal madam.

<b>Skills and Values</b>	<b>Description</b>
Communication	Role Plays and Debates provided practical experience in speaking English smoothly and naturally.
Listening Skills	Students improved their ability to focus and understand instructions accurately, especially through activities like "Simon Says."
Self-Control and Discipline	Activities required students to stay attentive and act carefully, promoting patience and mindfulness.
Public Speaking and Confidence	Through Show and Tell and the Debate Competition, students gained valuable experience in speaking clearly and confidently before an audience
Critical Thinking and Logical Reasoning	Debating helped students analyze issues, form opinions, and present arguments logically.
