Sub:- Maths

S.N.	Months	No.Of Periods	Topic's Name	Objectives	Pedagogical Method
1	April	22	1.Large Numbers	To understand the concept of place value of 6 digit number	Use number cards 0 to 9 select any six digits and form smallest and biggest six digit number and read it
			8.Patterns & Symmetry	To understand & develop knowledge of symmetry and create patterns	Draw Rangoli by using tessellations and colour it beautifully
2	June	18	2.Addition and subtraction	To Apply their knowledge of addition, subtraction, on large numbers. To know the properties of addition and subtraction	Teacher will distribute 5 to 6 digits noand ask to students to read the number and carry out addition and subtraction

			7. The world of shape	To understand the basic geometry to draw and measure line segment recognise open and closed curve learn about polygons and to draw a circle.	Draw polygons colour it cut it and make the pattern of it
3	July	20	3. multiplication	To understand multiplication of 5 digit and 6 digit numbers and multiplication tables 11 to 20	Make Multiplication tables of numbers between 20 and 30 by adding numbers to 20. As $21=20+1$.
			5. Factors & Multiples	To develop an understanding prime & composite numbers, rules of divisibilities, prime factorization, HCF &	Outdoor game students will walk in a circle teacher will call anyone number and students will make group of that
	August	24	11. Time	To know more about time as well as addition and subtraction of time. 24 hours clock format	1 teacher will prepare cards of a.m. and p.m. she will give examples of time. Teacher will conduct a game of time
			12. Money	Students will be able to add subtract multiply and divide money make a bill	Drama of shopkeepers and customers
5	September	10	4. Division	To understand division of three digit numbers and four digit number by 2 digit number and properties of division	To reinforce the understanding of remainder in division
			I Semester		

	October	18	9. Metric measures	To understand measurement of length weight and capacity	Students will make their own measuring tape
	November	18	14.Problem Solving skill	To teach how to read mathematics well and to handle problems effectively	Draw a picture or diagram with the given information
6	December	20	10. Perimeter and area	To understand the definition of perimeter and area. To calculate perimeter and area of closed figure	To find area of regular and irregular shapes by using graph paper
6	January	20	13. Data handling	To understand the students to draw and interpret a bar graph and pie chart	To draw a bar graph and pie chart
7					
	February		Revision		
8	March		II Sem Exam		

Mrs. Nadgauda.M
Mrs.Ghogare .J

Std:- IV

Subject Enrichment Activities

Making Smallest and greatest 5 - 6 digit number using flash cards with single digits

Identifies symmetries on shape of paper & create a pattern using these shapes

conduct an election in a class for selecting the monitor of the class make a table of votes.

by using piece of paper each one to fold it into half on one side spill few drops of ink press the press the halves and open they will get symmetrical figure

Complete the table of Multiplicand, Multiplier and product

Take big sheet of paper draw on the trunk write the number 24 and students to draw roots with possible

draw a timeline of important events in your mothers or fathers life

Prepare artificial notes and coins

Division with money

Make a table of information given
calculation of perimeter by using measuring tape
Draw a pie graph using different colours
